CONSENT TO INITIATE CARE

Welcome to our office. In order to provide for the most effective healing environment, most effective application of chiropractic procedures and the strongest possible doctor-patient relationship, it is our wish to provide each patient with a set of parameters and declarations that will facilitate the goal of optimum health through chiropractic. To that end, we ask that you acknowledge the following points regarding chiropractic care and the services that are offered through this practice:

A. Chiropractic is a licensed health care discipline which emphasizes the inherent recuperative power of the body to heal itself without the use of drugs or surgery.

B. The Practice of Chiropractic focuses on the relationship between structure (primarily the spine) and function (as coordinated by the nervous system) and how that relationship affects the preservation and restoration of health.

C. Chiropractic evaluation and examination is part of the standard chiropractic procedure. It is designed to identify health problems and chiropractic needs. Doctors of Chiropractic focus particular attention on prevention and correction of Subluxation.

D. Subluxation (particularly of the spine) is a complex of alignment, movement and/or pathological joint abnormalities that chokes off or compromises nerve integrity causing abnormal organ system function and ill health.

E. Chiropractic Adjustment is a very specific manipulation, only performed by licensed chiropractors, to eliminate Subluxation and allow normal nerve function and health restoration. Chiropractic Adjustments are safe, effective procedures applied over one-million times each day in the United States alone.

F. Prevention of Subluxation is accomplished through maintenance adjustments and nutritional, mental, and physical wellness habits taught and prescribed by Doctors of Chiropractic. Based on your condition, this office may also utilize adjunct therapeutic procedures as well.

G. We invite you to speak frankly to the doctor or staff on any matter related to your care at our office. We work to maintain as a supporting, open environment.

H. We do not seek to replace or compete with medical, dental or other type(s) of health professionals and will provide referral for other evaluation if the doctor feels it is the best interest of his patient. Those providers retain responsibility for the care and management of medical conditions. We do not offer advice regarding treatment prescribed by other providers.

I. Your compliance with Chiropractic Adjustment schedules and instructions is essential to maximum healing and optimal health through Chiropractic. We will work diligently to help you meet your Chiropractic needs.

J. Cancellation Policy: Your time is invaluable, as is Dr. James. Your appointment time is reserved for you and we do our best to give you the care you deserve and need with minimal to no wait. Please give adequate notice for cancelled or rescheduled appointments or a fee may apply.

We are committed to providing the highest quality care possible so that you and your family may enjoy an active, healthy life, with affordable fees. Thank you for taking the first step towards restoring and maintaining your spinal health.

I understand all of the above information and give consent for chiropractic and nutritional evaluations and care to be performed by Dr. James.
